Welcome Back!

I hope you all had a good Easter Break at home and managed to have some fun!

Newsletter

Year 2   Summer term 2020

Hi everyone!
Hope you are well and keeping safe. The Year 2 team are missing you all and are hoping to see you very soon!
Normally I would be writing to tell you all about the Summer term and the things we would be completing, but due to the Corona Virus many things have changed. I hope this newsletter answers some of your questions about things we will be doing in the Summer term.
Kind regards,
Miss Bahra

Topic
This half terms topic will be At the Seaside. We will be exploring the features of the Seaside and how holidays have changed over time.
The topic will focus on History, Geography and Art. Many children have expressed how they have enjoyed previous topics. I hope they continue to enjoy the upcoming topics. Our topic during the second half of the term will be At the Zoo!

SATs
Due to the Corona Virus the SATs, usually completed in May have been cancelled this year.

Reading
I would like to encourage children to continue reading on a regular basis at home. If you are struggling with reading material please use the Collins Big Cat link provided on ItsLearning to access reading material. The login details are the same for everyone (enter the first option for each drop down menu to login).

Itslearning
Work will be set daily on ItsLearning and children will have the opportunity to respond to conversations set for them. Assignments will be a new feature, where children will be able to submit work on a given template and receive feedback. Hopefully this will support children in their learning whilst at home. Please encourage your child to visit the site daily and complete the activities set for them. They can record their work in the Home Learning book provided or their Homework Books.

Contact
During term time I will continue to contact each household weekly to see how children are getting on and to answer any questions you may have. If you have a question please post it on the discussion section on ItsLearning and I will try my best to answer them.
